TOMATOSECRET

01/18

The secret to growing beautiful, juicy tomatoes is having the nutrients available when the plants need them. **TomatoSecret** is the culmination of five generations of successful tomato gardening within the Zamzow family. That's over 80 years of growing amazing tomatoes year after year. We know how to help you plant the best tasting tomatoes you can grow. **TomatoSecret** was made to be shared. Thanks for giving it a try. We know you're gonna be impressed!

DIRECTIONS:

At the start of the season, dig a hole deep enough to put about 1 cup of TomatoSecret under the plant. Then, apply TomatoSecret to the deep soil space where your tomato plants will be planted. Cover TomatoSecret with an inch of soil, then place tomato plants in the soil space to plant. TomatoSecret puts nutrients in the soil that feed root bacteria and microbes to grow tomatoes faster and healthier!

Reapply TomatoSecret around your tomato plants monthly throughout the summer, when your tomatoes will grow quickly. Side-dressing your tomato plants during the season keeps the magic happening deep into the Fall.

ALL NATURAL ★ ADDED CALCIUM TO REDUCE BLOSSOM END ROT

2-1-1
